#### Objetivo

validar campos y reglas de entrada.

Si campos y reglas de entrada = OK entonces continuar paso 3. De lo contrario devolver mensaje de error especificando condición que no cumple

#### Obtención de información de CMC.

Si proceso OK, continuar paso 4.

Si proceso con error, continuar paso 5.

Construir respuesta en base a la información obtenida de CMC y retonar al consumidor.

Construir respuesta de error y retornar al consumidor.
